Report Summary

Meta Ads Analysis

- **Gynecology Focus:** This segment continues to be our primary driver for direct engagement. The top-performing creative successfully converted interest into direct WhatsApp inquiries, maintaining a healthy Click-Through Rate (CTR).
- **Dental Focus:** This service is proving more effective at driving high-volume website traffic. The leading dental assets are successfully pushing potential patients to our landing pages for more detailed service exploration.
- **Creative Assets:** Our secondary top-performing asset has achieved a significant number of WhatsApp messages, reinforcing the effectiveness of our current visual messaging.

Google Ads Insights (Feb 24 – Mar 9):

- **Local Intent:** We focused on capturing high-intent searches within the Al Shamkha and Baniyas areas (e.g., "*Dentist near me*" or "*Gynaecologist in Al Shamkha*").
- **Top Performer:** Dental keywords are currently the volume leader, driving the majority of search traffic and qualified clicks to the website.
- **Budget Efficiency:** We are performing daily audits of search terms to immediately exclude irrelevant queries. This proactive management ensures that every dirham of the budget is strictly allocated to local, high-potential patients.

Meta daily spend: 135 AED

Google daily spend: 105 AED

Approx Monthly spend: 7500 AED

Report Summary

Insights

- **Behavioral Shift:** audience has clearly voted with their thumbs. They prefer immediate human connection (WhatsApp/Calls) over static website forms.
- **Meta** Instagram audience (only 12% Abu Dhabi) while facebook audience (51% Abu Dhabi), Facebook algorithm is currently better at finding the local Baniyas/Shamkha residency cluster.
- **Google** is attracting a surprisingly high male audience (42%). This indicates men are searching for "Emergency Dental" or "Cleaning" via search, while women engage with the brand via social discovery.

Strategy

- Capture patient user in 1 click rather than filling form. Stop trying to force users to "Book on Website." It is creating friction. Adopt a "Chat-First" Funnel.
- Male-Targeted Ads: Create Ads specifically for the 42% male audience (e.g., "Fast Dental Relief," "Open Late," "Easy Parking").
- Female-Targeted Ads: Focus on Gynecology and "Family Smile" packages for the 50%+ female audience on Facebook.
- Landing Page: Add a "Directions" button. For a local clinic, "How to get there" is often the final step before a call.
